

AMMAR MOHAMED

Telecommunication Engineer & Cybersecurity Student

amarselmy@gmail.com | +20 101 421 2909 | Ismailia, Egypt | linkedin.com/in/ammam-mohamed-a9103a326

PROFESSIONAL SUMMARY

Electronics and Communications Engineering student at Suez Canal University with a strong foundation in IT fundamentals, networking, and cybersecurity. Proactive learner with hands-on experience in front-end development, hardware, and security certifications. Seeking to leverage technical skills in a challenging cybersecurity or telecommunications role.

EDUCATION

Suez Canal University — B.Sc. Electronics & Communications Engineering 2024 – 2029 (Expected)
Ismailia, Egypt | Current Grade: Excellent
Relevant Coursework: Cybersecurity Fundamentals, Front-End Web Development, Digital Logic Design, Networking

CERTIFICATIONS

Google Cybersecurity Professional Certificate Google / Coursera	In Progress
Cybersecurity (101) TryHackMe	2026
University of Michigan Python Specialization University of Michigan / Coursera	2026
CompTIA Network+ (Studied) CompTIA	2025
Front-End Web Development Bootcamp Creativa Academy	Completed

TECHNICAL SKILLS

Cybersecurity: Network Security, Security Fundamentals, Penetration Testing, Web Pentesting
Networking: TCP/IP, LAN/WAN, OSI Model, Subnetting, Network Troubleshooting
Programming & Development: Python, HTML, CSS, JavaScript, C++
IT Support: Hardware Troubleshooting, Operating Systems, Help Desk Support
In Progress: Security+, Jr Penetration Tester (THM), Web Penetration Testing Labs (PortSwigger), CWES Path (HTB)

PROJECTS

BCD (Binary Coded Decimal) Logic Design Designed and implemented a BCD circuit as part of a digital logic coursework project, demonstrating understanding of digital electronics and Boolean algebra.	Suez Canal University
Front-End Web Development Project	Creativa Bootcamp

Built a responsive website using HTML and CSS during a structured front-end bootcamp, applying modern web design practices.

ACTIVITIES & EXPERIENCE

TryHackMe — Cybersecurity Training Platform *Online | Ongoing*

Certificate: Cybersecurity 101 — TryHackMe

- Completed hands-on cybersecurity labs and capture-the-flag (CTF) challenges covering topics such as Linux fundamentals, web application security, and network exploitation.
- Practiced offensive and defensive security techniques, including vulnerability assessment and privilege escalation in simulated environments.

IEEE Student Cybersecurity Member *Suez Canal University Chapter*

- Actively engaged with IEEE community members sharing interests in electronics, communications, and technology.
- Participated in technical workshops, seminars, and collaborative engineering projects.

EYE Community — Youth Organization *Ismailia, Egypt | Present*

Ministry of Youth and Sports — Ismailia Chapter

- Active member of a youth organization affiliated with the Egyptian Ministry of Youth and Sports, contributing to community development and youth engagement initiatives in Ismailia.
